

PRODUCT REQUIREMENTS DOCUMENT (PRD)

PAMUSHIKA IN

Version

1.0

Product Vision

PAMUSHIKA IN is a digital marketplace that connects consumers with local fruit, vegetable, indigenous food, and organic food vendors. The platform aims to promote healthy eating habits, support local vendors, preserve indigenous African foods, and digitally organize the fresh produce market.

The platform will help consumers easily locate nearby vendors selling fruits, vegetables, herbs, and traditional African foods while empowering vendors with a digital storefront to grow their businesses.

Problem Statement

Many consumers:

- Do not know where to find healthy organic foods.
- Are unaware of the nutritional benefits of indigenous African foods.
- Depend heavily on processed foods.
- Cannot easily locate trusted local vendors.

Many vendors:

- Operate informally.
- Lack digital visibility.
- Have no customer rating system.
- Have limited access to a wider market.

PAMUSHIKA IN solves these challenges through a location-based marketplace that promotes healthy eating and supports local food vendors.

Objectives

Health Objectives

- Increase daily consumption of fruits and vegetables.
- Promote indigenous African foods.
- Educate users on nutritional benefits.
- Reduce dependency on unhealthy processed foods.

Business Objectives

- Digitize the fresh produce market.
 - Enable vendors to sell online.
 - Create recurring subscription revenue.
 - Build Africa's largest indigenous food marketplace.
-

1. User Registration

Consumer Registration

Required Information:

- Full Name
- Email Address
- Phone Number
- Password

- Location

Vendor Registration

Required Information:

- Full Name
 - Business Name
 - Email
 - Phone Number
 - National ID Number (Optional)
 - Physical Location
 - Product Categories
-

Vendor Onboarding Flow

Step 1

Business Information

Step 2

Location Verification

Step 3

Products Sold

Step 4

Business Photos

Step 5

Terms and Conditions

Step 6

Subscription Selection

Step 7

Payment Wall

Vendor gains access after payment.

Vendor Subscription Plans

Starter

- Up to 20 products
- Basic visibility

Growth

- Up to 100 products
- Priority visibility

Premium

- Unlimited products
- Featured listing
- Sponsored placement

Monthly and yearly billing.

Product Listings

Vendor uploads:

- Product Name
- Category
- Description
- Price
- Stock Availability
- Photos
- Unit Type

Examples:

- Ginger
 - Moringa
 - Sweet Potatoes
 - Millet
 - Baobab Fruit
 - Pumpkin Leaves
 - Okra
 - Wild Mushrooms
 - Avocados
-

Food Education Module

Every food item includes:

Nutritional Information

- Vitamins
- Minerals
- Protein
- Fiber

Health Benefits

Examples:

Ginger

Benefits:

- Supports immunity
- Aids digestion
- Anti-inflammatory

Baobab

Benefits:

- Rich in Vitamin C
- Supports gut health

Moringa

Benefits:

- Rich in antioxidants
- Supports healthy blood sugar levels

Healthy Living Section

Daily content:

- Fruit of the day
 - Vegetable of the day
 - Indigenous food spotlight
 - Healthy recipes
 - Nutrition tips
-

Consumer Marketplace

Users can:

- Search products
 - Browse by category
 - Filter by distance
 - Filter by vendor rating
 - Save favorites
-

Smart Nearby Vendor System

Works similarly to ride-hailing discovery.

User selects:

- Product
- Quantity

System displays:

- Nearest vendors
- Available stock
- Vendor ratings

Results sorted by:

1. Distance
 2. Rating
 3. Availability
-

Fixed Pricing System

The platform manages standard market pricing ranges.

Examples:

- Ginger: \$0.50
- Tomatoes: Market Rate
- Bananas: Market Rate

Vendors choose within approved ranges.

Purpose:

- Prevent price manipulation.

- Protect consumers.
-

Ratings and Reviews

Customers rate vendors:

★★★★★

Metrics:

- Product Quality
- Freshness
- Delivery
- Customer Service

Average rating shown publicly.

Notifications System

Consumers receive:

- Favorite food restocked
- Nearby vendor alerts
- Healthy eating tips
- Seasonal produce updates

Examples:

"Fresh avocados available 500m from your location."

"Today's nutrition tip: Eat leafy vegetables for iron and vitamins."

Delivery Module (Phase 2)

Optional delivery service.

Consumer can:

- Request delivery
 - Track order
 - Receive notifications
-

Community Features

Users can:

- Share recipes
 - Share healthy eating tips
 - Save favorite foods
 - Follow favorite vendors
-

Web Platform Features

Vendor Dashboard

- Manage products
- Manage inventory
- View ratings
- View earnings
- Manage subscriptions

Admin Dashboard

- Vendor approvals
- Product moderation
- User management
- Analytics
- Reports

Consumer Portal

- Search products
 - View food information
 - Locate vendors
-

Mobile App Features

Consumer App

- Marketplace
- Location services
- Product search
- Notifications
- Favorites
